

THE REAL MADRID VS. DC UNITED SOCCER SCHOOL
LESSON #2: HOW TO SPLIT TWO DEFENDERS ON THE WING

1. Send the ball *around* the most forward defender and then run *between* them.

5. Finally get the trailing defender off your back.

2. Run in front of the trailing defender.

6. Be careful, as he'll be desperate to stop you.

3. Carry him if necessary.

7. See what I mean?

4. Keep your balance.

8. Try not to step on him as you break for the goal.
